DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art does not teach the method of generating digital values in the visible range and identifying those pixels with values beyond a maximum which is close to pure white or a minimum which is close to pure black. Furthermore, the prior art does not teach identifying a pixel that corresponds to a scratch and ONLY comparing the pixels located in a column generally aligned with the identified pixel. Furthermore, the prior art does not teach the method of removing at least one column of pixels from within a scratch if the width of the scratch exceeds a width of 6 pixels at normal broadcast resolution or 10 pixels at high definition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
